

U4GO is a high performance UHF integrated 900MHz system perfect for vehicle and people identification

The AES128 encryption RF module works in two operating modes:

Stand-Alone Mode:

Manage up to 7,560 UHF credentials and 100 remote keys

or

Wiegand Mode (26-, 30- or 44-bit supported):

Maximum credentials management depends on the capacity of the access control system

U4GO provides *secure long-range access* for many applications such as parking facilities, gated communities, campuses and rolling stock.

The U4GO readers are easy to install, versatile, and perfectly suited for for all your needs.

Operating temperature from -10° to 140°F (-25° to 60°C)

High Performance UHF Integrated System

Wireless Signal with **AES128 ENCRYPTION**

U4GO

UHF READERS

A10U49 Long-Range Reader

- 33 ft (10 m) read range
- Compatible with Atrium, Centaur and most Wiegand systems
- 50 mph vehicle speed
- 17.5 x 17.5 x 2.15 in.

A6U49 Mid-Range Reader

- 20 ft (6 m) read range
- Compatible with Atrium, Centaur and most Wiegand systems
- 50 mph vehicle speed
- 9.25 x 9.25 x 2.25 in.

UHF CREDENTIALS

CTU48 ISO RFID Card

- Sold in packs of 10
- Available in dual technology (UHF + Mifare DESFire EV2 or other combo)

ATU48 Windshield RFID Tag

- Passive battery free tag
- Sold in packs of 10
- Flexible sticker

PTU48 License Plate RFID Tag

- Designed for vehicle tracking
- Dust and water resistance
- Sold individually
